

Stadt Ingolstadt

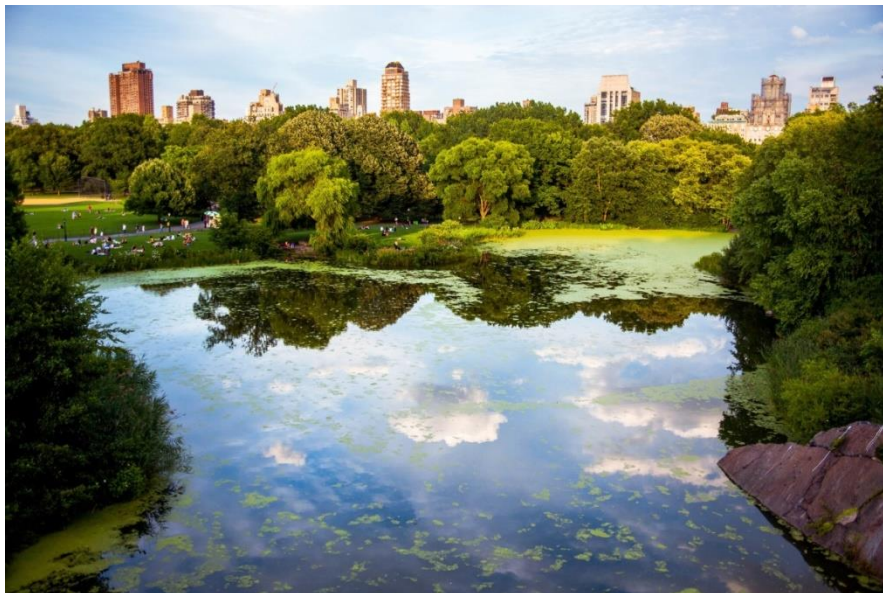

Blue and Green Infrastructure for Sustainable Cities

Blue Green City final conference

11-12 October 2022

Ingolstadt (Germany) and online

REGISTER FOR A FREE TICKET

Blue Green City is a network of municipalities and regions co-funded by Interreg Europe (2019-2023) seeking to improve policies that promote Blue and Green Infrastructure (BGI) as an integral part of a local or regional natural heritage preservation strategy. The final conference will bring together the partners and their stakeholders to share their experiences of the interregional learning process and to discuss best practice recommendations for improving policy instruments that promote blue and green infrastructure.

The hybrid event will take place at brigk digital, Schloßlände 26, 85049 Ingolstadt. Online participants will be sent the Zoom link before the event.

AGENDA

Tuesday, 11 October 2022
